ODYSSEY 5000

Home Video
Game

Digital On-Screen Scoring – after each player scores, the point is registered on the screen in large digits between serves. A game is completed when a player achieves 21 points in all games; except Knockout, which can register up to 3200!

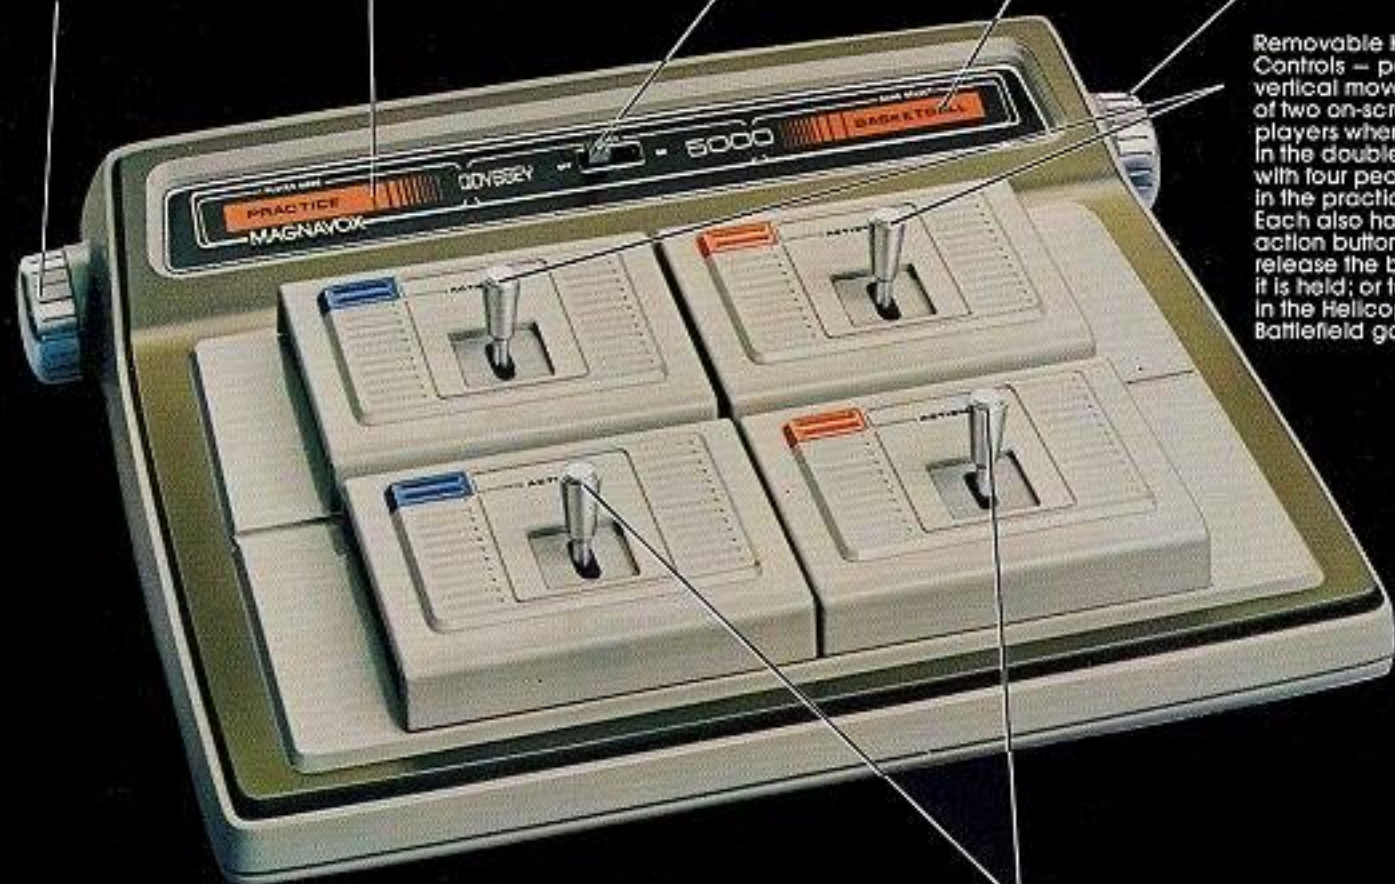

Player Mode Select Knob – permits choice of five different modes of play – Practice /1; Practice /2; Cutoff /1/2; Singles; Doubles.

Player Mode Display – shows the mode of play in large, easy-to-read letters.

Power On/Off/Reset Switch – is used to turn unit on or off and to reset the score after a game is completed.

Game Display – shows what game is being played.

Game Select Knob – permits easy selection of any of the basic games.

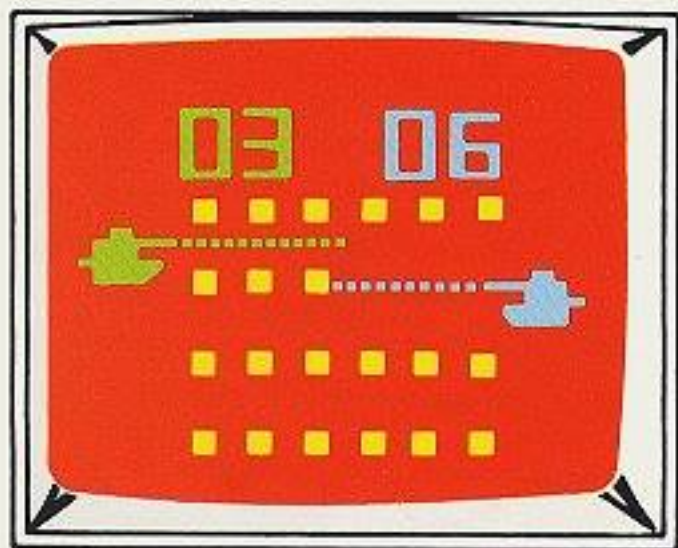

Removable Hand Controls – permit vertical movement of two on-screen players when playing in the doubles mode with four people and in the practice mode. Each also has an action button to release the ball once it is held; or to "shoot" in the Helicopter and Battlefield games.

Other unique features include:
Stop Action to "hold" ball or puck
• Speed automatically increases in five increments
• Selectable handicaps
• Realistic action sounds
• Full color displays (when used on a color TV)
• AC adaptor included.

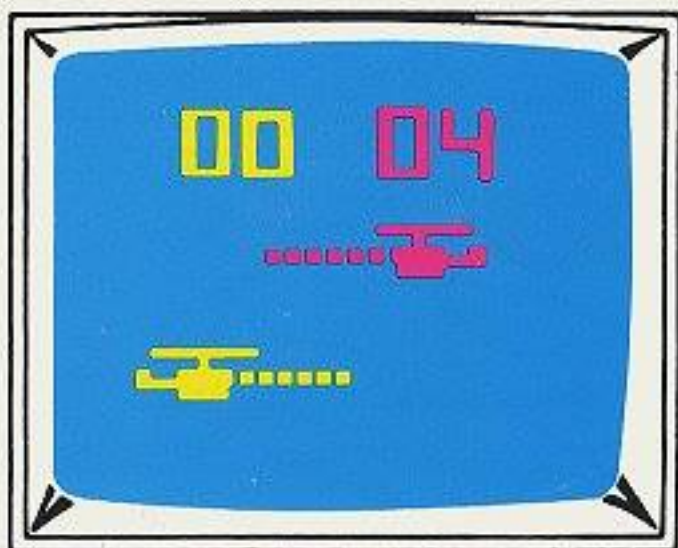

Removable Hand Player Controls – with "joystick" action, are exclusively designed to permit random movement of two on-screen players.
