PROMOTION: HDW-M2000/1 & BVM-D24E1WU PAC

Sony is pleased to introduce a new HDCAM® and BVM-D monitor package that will **save your customers 20%** from the suggested list price of all the included components. That's right. Your customers that use HDCAM need a high quality BVM-D monitor for viewing their high definition content. Now they will be able to purchase both an HDW-M2000/1 VTR and BVM-D24E1WU monitor and the HD-SDI input board while saving 20% when they order this special bundle during this promotional period.

Group One Representatives will receive an 11.5% commission rate on all of the models within this bundle when selling this package at the promotional price shown below. Please note that this package includes the BVM-D24E1WU, which is commissionable only when sold as part of this package.

It's important to note that your customer will require either a BKM-10R Central Control Unit or a BKM-11R Hand-Held control Unit depending on their application. If they choose the BKM-10R, then the BKM-34H Attachment Kit is recommended. These three items are additional accessories and not part of the PAC.
