DESCRIPTION

When you need to replace the CRT, use the CRTs in Table 1.

Table 1

Model	CRT	Part No.
BVM-D14H1U–BVM-D14H5U	14MZ3	8-738-377-05
<i>BVM-D14H1E–BVM-D14H5E</i>	<i>14MZ1</i>	<i>8-738-376-05</i>
<i>BVM-D14H1A–BVM-D14H5A</i>		

NOTE:

- Delta Ekco voltage of the CRTs is corrected to prevent W/B drift.
- The CRTs in Table 1 must be used only in BVM-D14H1/H5 series units. Do not use these CRTs in any other units.

HOW TO RECOGNIZE CORRECTED CRT

Some corrected CRTs are marked with a green felt-tip pen on the HS band. (See Figure 1.)

Figure 1

NOTE:

- 14MZ CRTs with production numbers up to 311010000 may be used to service BVM-D14H1/H5 series units provided the CRT has the part number listed in Table 1 on its carton, regardless of whether or not the CRT has a green mark.
 - Do not use 14MZ CRTs to service BVM-D14H1/H5 series units if the part number of the CRT cannot be identified and if the CRT does not have a green mark as shown in Figure 1.
-
