Subject: **NOTES ON INSTALLING INPUT ADAPTER**

Model: **BVM-14E1U/14E5U/14F1U/14F5U**
BVM-20E1U/20F1U
BKM-20D/21D

Serial No: **2,000,001 AND HIGHER**

DESCRIPTION

When installing an input adapter, the following information is applicable.

- With a BKM-20D (SDI decoder adapter) or BKM-21D (SDI multi decoder adapter) installed, when installing an input adapter or a blank panel to the adjacent card slot, the shield finger (P/N 4-052-232-01) on the BKM-20D/21D may hinder insertion and become damaged. (See Figure 1.)
- If a BK board is inserted and then removed after a BKM-20D or BKM-21D is installed in an adjacent card slot, the shield finger may become damaged.

To avoid these problems, install components in the following order.

INSTALLATION PROCEDURE

1. Install input adapter, blank panel, and BK board.
2. Install BKM-20D or BKM-21D.

If a BKM-20D or BKM-21D is already installed:

1. Remove input adapter.
2. Install input adapter, blank panel, and BK board.
3. Reinstall BKM-20D or BKM-21D.
