

Broadcast Products Technical Bulletin 1997-128 Technical Bulletins for Business and Professional Products for North, Central, and South America

Display

Date: **October 6, 1997**

Model: BVM-1315

Serial No: ALL

Subject: ENHANCING RELIABILITY

DESCRIPTION

To enhance the reliability of the BVM-1315 color video monitor, replace JW18 (+150V bus, near the EA-5 connector) with an 0.47Ω resistor.

NOTE: Confirm C8 and C10 on the GA board are properly installed. Refer to Broadcast Products Technical Bulletin 94-228.

PARTS REQUIRED

Part No.	Description	Qty.
1-249-443-11	Res, 0.47Ω	1
