DESCRIPTION

Red or blue color may not appear on the screen.

This symptom occurs if the harness from CN801 on the T board is positioned inappropriately and becomes pinched or damaged by the top cover when closed.

PART REQUIRED

UL tape, 19 mm × 70 mm

(7-600-006-38, Nitto Denko 223S or equivalent)

MODIFICATION PROCEDURE

To protect the harness from the edges of the ventilation holes on the top cover, affix UL tape as shown in Figure 1.

NOTE: Ensure that the tape does not overlap the top edge of the cover.
