Subject: RESET MALFUNCTION

Model: PVM-2030/2530

Serial No: 2,023,751-2,035,050 (PVM-2030)
2,031,751-2,039,700 (PVM-2530)

DESCRIPTION

Pressing the RESET key on the front panel will restore standard (default) control settings. However, once this key has been pressed, and the monitor is turned off, then on again, the unit may revert to previous control settings. To eliminate this, cut the lead of resistor CP101-6 connected to IC102-15 (BUSY terminal) on the B1 board as shown in Figure 1.
