

HDVS® Display

Date: **August 30, 1993**

Subject: **FLICKERING SCREEN WITH 220V/50Hz
LINE VOLTAGE**

Model: **HDM-1230**

Serial No: **ALL**

DESCRIPTION

When 220V/50Hz line voltage is used, flickering may occur on a dark screen. If this occurs, replace R9 (100kΩ) on the CB board (solder side) with a new 10MΩ resistor. (See Figure 1.)
